will not even let me download this addon. it keeps loading this page for download but when it asks if i have steam app i click yes but nothing happens.. Loading time ist at 15+ minutes and thats not a state to release or to use this mod. I really love the intention of it and hope so hardly that it will be fixed. But at the moment I cant recommend it to anyone.. COOOOOOOOOOOL. awesome this is radical you can make loads of cool stuff. Primitice + is crap. Takes way to long to load and there isnt really enough conetent added to the game to make the wait worth while.. u0633u064au0634
